

## Sex-Determining Region Y Protein (SRY) Antibody

Catalogue No.: abx013581

Western blot analysis of extracts from HeLa cells, using SRY antibody.

Rabbit polyclonal antibody against SRY protein. Immunogen region is Internal.

|                               |                                                                                                              |
|-------------------------------|--------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Sex-Determining Region Y Protein (SRY)                                                                       |
| <b>Clonality:</b>             | Polyclonal                                                                                                   |
| <b>Reactivity:</b>            | Human                                                                                                        |
| <b>Tested Applications:</b>   | ELISA, WB                                                                                                    |
| <b>Host:</b>                  | Rabbit                                                                                                       |
| <b>Recommended dilutions:</b> | WB: 1/500 - 1/3000, ELISA: 1/20000. Optimal dilutions/concentrations should be determined by the end user.   |
| <b>Conjugation:</b>           | Unconjugated                                                                                                 |
| <b>Immunogen:</b>             | The antiserum was produced against synthesized peptide derived from internal of human SRY.                   |
| <b>Isotype:</b>               | IgG                                                                                                          |
| <b>Form:</b>                  | Liquid                                                                                                       |
| <b>Purification:</b>          | Purified from rabbit antiserum by affinity chromatography using epitope-specific immunogen.                  |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                               |
| <b>UniProt Primary AC:</b>    | Q05066 ( <a href="#">UniProt</a> , <a href="#">ExPASy</a> )                                                  |
| <b>KEGG:</b>                  | hsa:6736                                                                                                     |
| <b>Buffer:</b>                | PBS (without Mg <sup>2+</sup> and Ca <sup>2+</sup> ), pH 7.4, 150 mM NaCl, 0.02% sodium azide, 50% glycerol. |

# Datasheet

Version: 4.0.0
