

## Mouse Anti-Human IgG Fc Antibody

Catalogue No.: abx134802

Mouse Monoclonal Secondary Antibody to Human IgG Fc.

|                               |                                                                                                                                                             |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Human IgG Fc                                                                                                                                                |
| <b>Clonality:</b>             | Monoclonal                                                                                                                                                  |
| <b>Reactivity:</b>            | Human                                                                                                                                                       |
| <b>Tested Applications:</b>   | ELISA, WB, IHC                                                                                                                                              |
| <b>Host:</b>                  | Mouse                                                                                                                                                       |
| <b>Recommended dilutions:</b> | ELISA: 1/5000 - 1/20000, WB: 1/5000 - 1/20000, IHC: 1/500 - 1/1000. Optimal dilutions/concentrations should be determined by the end user.                  |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                                                |
| <b>Immunogen:</b>             | Human IgG Fc                                                                                                                                                |
| <b>Form:</b>                  | Liquid                                                                                                                                                      |
| <b>Purification:</b>          | The antibody was isolated from ascites by immunoaffinity chromatography using antigens coupled to agarose beads.                                            |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                                                              |
| <b>Buffer:</b>                | 0.01 M PBS, pH 7.2 and 0.05% sodium azide.                                                                                                                  |
| <b>Specificity:</b>           | By immunoelectrophoresis and ELISA this antibody reacts specifically with Human IgG Fc. No antibody was detected against non immunoglobulin serum proteins. |
| <b>Concentration:</b>         | 1 mg/ml                                                                                                                                                     |
| <b>Note:</b>                  | THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.                  |
