

## Heat Shock Factor Protein 5 (HSF5) Antibody

Catalogue No.: abx145599

WB analysis of HeLa cell lysates, using HSF5 antibody (1/1000 dilution).

IHC-P analysis of human brain tissue, with cytoplasmic staining, using HSF5 antibody (1/100 dilution).

HSF5 Antibody is a Rabbit Polyclonal against HSF5.

|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Heat Shock Factor Protein 5 (HSF5)                                                                                                       |
| <b>Clonality:</b>             | Polyclonal                                                                                                                               |
| <b>Reactivity:</b>            | Human                                                                                                                                    |
| <b>Tested Applications:</b>   | ELISA, WB, IHC                                                                                                                           |
| <b>Host:</b>                  | Rabbit                                                                                                                                   |
| <b>Recommended dilutions:</b> | ELISA: 1/20000 - 1/80000, WB: 1/500 - 1/2000, IHC: 1/100 - 1/200. Optimal dilutions/concentrations should be determined by the end user. |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                             |
| <b>Immunogen:</b>             | Recombinant fragment corresponding to 63-287 AA of human HSF5.                                                                           |
| <b>Isotype:</b>               | IgG                                                                                                                                      |
| <b>Form:</b>                  | Lyophilized                                                                                                                              |
| <b>Purification:</b>          | Purified by antigen affinity column chromatography.                                                                                      |

# Datasheet

Version: 2.0.0

Revision date: 05 Jun 2025

**Reconstitution:** Reconstitute in 100 µl of sterile distilled H<sub>2</sub>O with 50% glycerol.

**Storage:** Store at -20 °C. Avoid repeated freeze/thaw cycles.

**NCBI Accession:** BC115385

**Buffer:** Prior to lyophilization: 1% BSA and 0.02% NaN<sub>3</sub>.

**Specificity:** Predicted to react with Mouse and Rat HSF5.

**Concentration:** Lyophilized form: Not applicable.  
After reconstitution: 1 mg/ml.

**Note:** THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.
