

## Thiol:Disulfide Interchange Protein DsbA (DSBA) Antibody (Biotin)

Catalogue No.: abx300288

dsbA Antibody (Biotin) is a Rabbit Polyclonal against dsbA conjugated to Biotin.

|                               |                                                                                                          |
|-------------------------------|----------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Thiol:Disulfide Interchange Protein DsbA (DSBA)                                                          |
| <b>Clonality:</b>             | Polyclonal                                                                                               |
| <b>Reactivity:</b>            | Bacteria                                                                                                 |
| <b>Tested Applications:</b>   | ELISA                                                                                                    |
| <b>Host:</b>                  | Rabbit                                                                                                   |
| <b>Recommended dilutions:</b> | Optimal dilutions/concentrations should be determined by the end user.                                   |
| <b>Conjugation:</b>           | Biotin                                                                                                   |
| <b>Immunogen:</b>             | Recombinant Pseudomonas syringae pv. Tomato Thiol:disulfide interchange protein DsbA protein (23-214AA). |
| <b>Isotype:</b>               | IgG                                                                                                      |
| <b>Form:</b>                  | Liquid                                                                                                   |
