

## Serine/threonine-Protein Kinase MAK (MAK) Antibody

Catalogue No.: abx317880

MAK Antibody is a Rabbit Polyclonal against MAK.

|                               |                                                                                                                                      |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Serine/threonine-Protein Kinase MAK (MAK)                                                                                            |
| <b>Clonality:</b>             | Polyclonal                                                                                                                           |
| <b>Reactivity:</b>            | Human, Mouse                                                                                                                         |
| <b>Tested Applications:</b>   | ELISA, WB, IHC, IF/ICC                                                                                                               |
| <b>Host:</b>                  | Rabbit                                                                                                                               |
| <b>Recommended dilutions:</b> | WB: 1/1000 - 1/5000, IHC: 1/20 - 1/200, IF/ICC: 1/50 - 1/200. Optimal dilutions/concentrations should be determined by the end user. |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                         |
| <b>Immunogen:</b>             | Recombinant human Serine/threonine-protein kinase MAK protein (200-440AA).                                                           |
| <b>Isotype:</b>               | IgG                                                                                                                                  |
| <b>Form:</b>                  | Liquid                                                                                                                               |
| <b>Purity:</b>                | > 95%                                                                                                                                |
| <b>Purification:</b>          | Purified by Protein G.                                                                                                               |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                                       |
