

26S Proteasome Non-ATPase Regulatory Subunit 10 (PSMD10) Antibody (Biotin)

Catalogue No.: abx304992

26S Proteasome Non-ATPase Regulatory Subunit 10 (PSMD10) Antibody (Biotin) is a Rabbit Polyclonal against 26S Proteasome Non-ATPase Regulatory Subunit 10 (PSMD10) conjugated to Biotin. This gene encodes a subunit of the PA700/19S complex, which is the regulatory component of the 26S proteasome. The 26S proteasome complex is required for ubiquitin-dependent protein degradation. This protein is a non-ATPase subunit that may be involved in protein-protein interactions. Aberrant expression of this gene may play a role in tumorigenesis. Two transcripts encoding different isoforms have been described. Pseudogenes have been identified on chromosomes 3 and 20.
