

Transducin Like Enhancer Of Split 4 (TLE4) Antibody

Catalogue No.: abx025001

Transcriptional corepressor that binds to a number of transcription factors. Inhibits the transcriptional activation mediated by PAX5, and by CTNNB1 and TCF family members in Wnt signaling. The effects of full-length TLE family members may be modulated by association with dominant-negative AES (By similarity). This antibody is supplied as crude ascites.
