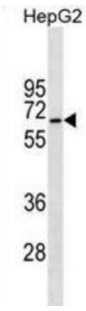
Serine/Threonine Kinase 39 (STK39) Antibody

Catalogue No.:abx025397



This gene encodes a serine/threonine kinase that is thought to function in the cellular stress response pathway. The kinase is activated in response to hypotonic stress, leading to phosphorylation of several cation-chloride-coupled cotransporters. The catalytically active kinase specifically activates the p38 MAP kinase pathway, and its interaction with p38 decreases upon cellular stress, suggesting that this kinase may serve as an intermediate in the response to cellular stress. [provided by RefSeq]. This antibody is supplied as crude ascites.

Target:	Serine/Threonine Kinase 39 (STK39)
Clonality:	Monoclonal
Reactivity:	Human
Tested Applications:	ELISA, WB
Host:	Mouse
Recommended dilutions:	WB: 1/1000 - 1/4000. Optimal dilutions/concentrations should be determined by the end user.
Conjugation:	Unconjugated
Immunogen:	Purified His-tagged Human STK39 protein (Fragment)
Isotype:	IgG_1
Form:	Liquid
Purification:	Unpurified crude ascites.
Storage:	Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.
UniProt Primary AC:	Q9UEW8 (UniProt, ExPASy)

String:	9606.ENSP00000348278
Molecular Weight:	Calculated MW: 59.5 kDa
Buffer:	Ascites containing 0.09% sodium azide.
Specificity:	Predicted to react with Mouse and Rat STK39.
Note:	THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.
