

Mouse Aminoadipate Semialdehyde Synthase (AASS) Protein

Catalogue No.: abx650212

SDS-PAGE analysis of Mouse AASS Protein.

Mouse AASS Protein is a recombinant Mouse protein produced in a Prokaryotic expression system (E. coli).

Target: Aminoadipate Semialdehyde Synthase (AASS)

Origin: Mouse

Expression: Recombinant

Tested Applications: WB, SDS-PAGE

Host: E. coli

Conjugation: Unconjugated

Form: Lyophilized

Activity: Not tested

Purity: > 90%

Reconstitution: To keep the original salt concentration, we recommend reconstituting to the original concentration prior to lyophilization (see Concentration) in ddH₂O. If a lower concentration is required, dilute in PBS, pH 7.4. If a higher concentration is required, the product can be reconstituted directly in PBS, pH 7.4, though please note that this will change the overall salt concentration. The stock concentration should be between 0.1-1.0 mg/ml. Do not vortex.

Storage: Store at 2-8°C for up to one month. For long-term storage, store at -80°C. Avoid repeated freeze/thaw cycles.
