

## UBX Domain-Containing Protein 8 (UBXN8) Antibody

Catalogue No.: abx029031

Western blot analysis of Jurkat cell lysates (35 µg per lane) using UBX Domain-Containing Protein 8 (UBXN8) Antibody.

UBXN8 may play a role in reproduction.

|                               |                                                                                                                |
|-------------------------------|----------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | UBX Domain-Containing Protein 8 (UBXN8)                                                                        |
| <b>Clonality:</b>             | Polyclonal                                                                                                     |
| <b>Reactivity:</b>            | Human                                                                                                          |
| <b>Tested Applications:</b>   | ELISA, WB                                                                                                      |
| <b>Host:</b>                  | Rabbit                                                                                                         |
| <b>Recommended dilutions:</b> | WB: 1/1000. Optimal dilutions/concentrations should be determined by the end user.                             |
| <b>Conjugation:</b>           | Unconjugated                                                                                                   |
| <b>Immunogen:</b>             | KLH-conjugated synthetic peptide corresponding to 59-87 amino acids from the N-terminal region of human UBXN8. |
| <b>Isotype:</b>               | IgG                                                                                                            |
| <b>Form:</b>                  | Liquid                                                                                                         |
| <b>Purification:</b>          | Purified through a protein A column, followed by peptide affinity purification.                                |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                 |
| <b>UniProt Primary AC:</b>    | O00124 ( <a href="#">UniProt</a> , <a href="#">ExPASy</a> )                                                    |
| <b>Gene Symbol:</b>           | UBXN8                                                                                                          |
| <b>KEGG:</b>                  | hsa:7993                                                                                                       |

# Datasheet

Version: 5.0.0

Revision date: 29 Aug 2025

**String:** [9606.ENSPO0000479216](#)

**Molecular Weight:** Calculated MW: 30.5 kDa

**Buffer:** PBS containing 0.09% sodium azide.

**Specificity:** Predicted to react with Cow UBXN8.

**Note:** THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.

For Reference Only
