

# Na(+)/H(+) Exchange Regulatory Cofactor NHE-RF1 (SLC9A3R1) Antibody

Catalogue No.: abx032639

SLC9A3R1 Antibody is a Rabbit Polyclonal antibody against SLC9A3R1.

|                               |                                                                                                         |
|-------------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Na(+)/H(+) Exchange Regulatory Cofactor NHE-RF1 (SLC9A3R1)                                              |
| <b>Clonality:</b>             | Polyclonal                                                                                              |
| <b>Reactivity:</b>            | Human                                                                                                   |
| <b>Tested Applications:</b>   | ELISA, WB, FCM                                                                                          |
| <b>Host:</b>                  | Rabbit                                                                                                  |
| <b>Recommended dilutions:</b> | WB: 1/1000, FCM: 1/10 - 1/50. Optimal dilutions/concentrations should be determined by the end user.    |
| <b>Conjugation:</b>           | Unconjugated                                                                                            |
| <b>Immunogen:</b>             | KLH-conjugated synthetic peptide between 168-197 amino acids from the Central region of human SLC9A3R1. |
| <b>Isotype:</b>               | IgG                                                                                                     |
| <b>Form:</b>                  | Liquid                                                                                                  |

Version: 2.0.0  
Revision date: 15 Mar 2025

|                            |                                                                                                                                            |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Purification:</b>       | Purified through a protein A column, followed by peptide affinity purification.                                                            |
| <b>Storage:</b>            | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                                             |
| <b>UniProt Primary AC:</b> | O14745 ( <a href="#">UniProt</a> , <a href="#">ExPASy</a> )                                                                                |
| <b>Gene Symbol:</b>        | SLC9A3R1                                                                                                                                   |
| <b>KEGG:</b>               | hsa:9368                                                                                                                                   |
| <b>String:</b>             | <a href="#">9606.ENSP00000262613</a>                                                                                                       |
| <b>Molecular Weight:</b>   | Calculated MW: 38.9 kDa                                                                                                                    |
| <b>Buffer:</b>             | PBS containing 0.09% sodium azide.                                                                                                         |
| <b>Specificity:</b>        | Predicted to react with Mouse, Rat, Cow and Monkey SLC9A3R1.                                                                               |
| <b>Note:</b>               | THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION. |
