

Human Middle East Respiratory Syndrome Coronavirus IgG (MERS-CoV IgG) ELISA Kit

Catalogue No.:abx052609

Human Middle East Respiratory Syndrome Coronavirus IgG ELISA Kit is an ELISA kit against Human MERS-CoV IgG.

The capture antigen used i	n this kit is MERS-CoV S protein.
Target:	Middle East Respiratory Syndrome Coronavirus IgG (MERS-CoV IgG)
Research Area:	Human Disease
Reactivity:	Human
Tested Applications:	ELISA
Recommended dilutions	: Optimal dilutions/concentrations should be determined by the end user.
Storage:	Shipped at 4 °C. Upon receipt, store the kit according to the storage instruction in the kit's manual.
	The well-life for this life is Correctly.
Validity:	The validity for this kit is 6 months.
Stability	The stability of the kit is determined by the rate of activity loss. The loss rate is loss than $50'$ within
Stability:	The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration data under appropriate storage conditions. To minimize performance fluctuations
	the expiration date under appropriate storage conditions. To minimize performance fluctuations,
	operation procedures and lab conditions should be strictly controlled. It is also strongly suggested
	that the whole assay is performed by the same user throughout.
Assay Type:	Sandwich
Assay Data:	Qualitative
Sample Type:	Serum, plasma, cell culture supernatants and tissue homogenates.
Note	
Note:	THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES.
	Please note that our kits are optimised for detection of native samples, rather than recombinant
	proteins. We are unable to guarantee detection of recombinant proteins, as they may have
	different sequences or tertiary structures to the native protein.
