

Human Leucine Enkephalin (Leu-ENK) Peptide (OVA)

Catalogue No.: abx651916

Leucine-Enkephalin (Leu-ENK) Peptide (OVA) is a protein from Human.

Target: Leucine Enkephalin (Leu-ENK)

Origin: Human

Expression: Synthetic

Tested Applications: WB, SDS-PAGE

Host: Synthetic

Conjugation: OVA

Form: Lyophilized

Activity: Not tested

Purity: > 90%

Reconstitution: To keep the original salt concentration, we recommend reconstituting to the original concentration prior to lyophilization (see Concentration) in ddH₂O. If a lower concentration is required, dilute in PBS, pH 7.4. If a higher concentration is required, the product can be reconstituted directly in PBS, pH 7.4, though please note that this will change the overall salt concentration. The stock concentration should be between 0.1-1.0 mg/ml. Do not vortex.

Storage: Store at 2-8°C for up to one month. For long-term storage, store at -80°C. Avoid repeated freeze/thaw cycles.

Sequence Fragment: Tyr230-Leu234

Buffer: Prior to lyophilization: PBS, pH 7.4.

Concentration: Prior to lyophilization: 200 µg/ml

Note: THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.
