

## Procollagen Type I N-Terminal Propeptide (PINP) Antibody

Catalogue No.: abx132178

IHC-P analysis with Vector Red staining of Human skin tissue, using Procollagen Type I N-Terminal Propeptide (PINP) antibody (10 µg/ml) and HRP-conjugated Goat Anti-Rabbit antibody ([abx400043](#), 2 µg/ml).

Procollagen Type I N-Terminal Propeptide (PINP) Antibody is a Rabbit polyclonal against Procollagen Type I N-Terminal Propeptide (PINP).

|                               |                                                                                                      |
|-------------------------------|------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Procollagen Type I N-Terminal Propeptide (PINP)                                                      |
| <b>Research Area:</b>         | Metabolic Pathways, Hepatology, Bone Metabolism                                                      |
| <b>Clonality:</b>             | Polyclonal                                                                                           |
| <b>Reactivity:</b>            | Human                                                                                                |
| <b>Tested Applications:</b>   | IHC                                                                                                  |
| <b>Host:</b>                  | Rabbit                                                                                               |
| <b>Recommended dilutions:</b> | IHC: 5-20 µg/ml. Optimal dilutions/concentrations should be determined by the end user.              |
| <b>Conjugation:</b>           | Unconjugated                                                                                         |
| <b>Immunogen:</b>             | <a href="#">abx165804</a> - Synthetic Human PINP conjugated to KLH                                   |
| <b>Form:</b>                  | Liquid                                                                                               |
| <b>Purification:</b>          | Purified by antigen-specific affinity chromatography, followed by Protein A affinity chromatography. |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                       |
| <b>UniProt Primary AC:</b>    | P02452 ( <a href="#">UniProt</a> , <a href="#">ExPASy</a> )                                          |
| <b>Gene Symbol:</b>           | COL1A1                                                                                               |

# Datasheet

Version: 7.0.0

Revision date: 13 Oct 2025

**GeneID:** [1277](#)

**KEGG:** hsa:1277

**String:** [9606.ENSP00000225964](#)

**Buffer:** PBS, pH 7.4, containing 0.02% NaN<sub>3</sub>, 50% glycerol.

**Concentration:** 0.57 mg/ml

**Note:** THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.
