

# C-Jun-Amino-Terminal Kinase-Interacting Protein 1 / JIP1 (MAPK8IP1) Antibody

Catalogue No.: abx433490

abx433490 (1 µg/ml) staining of Human Amygdala (A) and Cerebellum (B) lysate (35 µg protein in RIPA buffer). Detected by chemiluminescence.

Mitogen-Activated Protein Kinase 8 Interacting Protein 1 (MAPK8IP1) Antibody is an antibody against MAPK8IP1.

|                               |                                                                                                                                       |

| <b>Target:</b>                | C-Jun-Amino-Terminal Kinase-Interacting Protein 1 / JIP1 (MAPK8IP1)                                                                   |
| <b>Clonality:</b>             | Polyclonal                                                                                                                            |
| <b>Reactivity:</b>            | Human                                                                                                                                 |
| <b>Tested Applications:</b>   | P-ELISA, WB                                                                                                                           |
| <b>Host:</b>                  | Goat                                                                                                                                  |
| <b>Recommended dilutions:</b> | P-ELISA: 1/32000. Optimal dilutions/concentrations should be determined by the end user.                                              |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                          |
| <b>Immunogen:</b>             | <a href="#">abx617380</a> - Internal region: C-DRIHYQADVRLATE                                                                         |
| <b>Isotype:</b>               | IgG                                                                                                                                   |
| <b>Form:</b>                  | Liquid                                                                                                                                |
| <b>Purification:</b>          | Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                                        |

# Datasheet

Version: 3.0.0

Revision date: 16 May 2025

**NCBI Accession:** NP\_005447.1

**Buffer:** Tris saline, pH 7.3, containing 0.02% sodium azide and 0.5% bovine serum albumin.

**Concentration:** 0.5 mg/ml

**Note:** THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.

For Reference Only
