

## Carcinoembryonic Antigen Related Cell Adhesion Molecule 1 (CEACAM1) Antibody

Catalogue No.: abx270166

Carcinoembryonic Antigen Related Cell Adhesion Molecule 1 (CEACAM1) Antibody is a Rabbit Polyclonal Antibody against Carcinoembryonic Antigen Related Cell Adhesion Molecule 1 (CEACAM1) for use in flow cytometry.

|                               |                                                                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Carcinoembryonic Antigen Related Cell Adhesion Molecule 1 (CEACAM1)                                                                        |
| <b>Clonality:</b>             | Polyclonal                                                                                                                                 |
| <b>Reactivity:</b>            | Human                                                                                                                                      |
| <b>Tested Applications:</b>   | FCM                                                                                                                                        |
| <b>Host:</b>                  | Rabbit                                                                                                                                     |
| <b>Recommended dilutions:</b> | FCM: 1-5 µl/10 <sup>6</sup> cells. Optimal dilutions/concentrations should be determined by the end user.                                  |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                               |
| <b>Isotype:</b>               | IgG                                                                                                                                        |
| <b>Form:</b>                  | Liquid                                                                                                                                     |
| <b>Purification:</b>          | Purified by antigen-specific affinity chromatography.                                                                                      |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                                             |
| <b>Buffer:</b>                | 0.01 M PBS, pH 7.4, containing 0.05% Proclin-300, 50% glycerol.                                                                            |
| <b>Note:</b>                  | THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION. |
