

Human Glucocorticoid Induced Tumor Necrosis Factor Receptor (GITR) Protein

Catalogue No.: abx653539

SDS-PAGE analysis of recombinant Human Glucocorticoid Induced Tumor Necrosis Factor Receptor (GITR) Protein.

Human Glucocorticoid Induced Tumor Necrosis Factor Receptor (GITR) Protein is a Recombinant Human protein expressed in *E. coli*.

Target: Glucocorticoid Induced Tumor Necrosis Factor Receptor (GITR)

Origin: Human

Expression: Recombinant

Tested Applications: WB, SDS-PAGE

Host: *E. coli*

Conjugation: Unconjugated

Form: Lyophilized

Purity: > 90%

Reconstitution: To keep the original salt concentration, we recommend reconstituting to the original concentration prior to lyophilization (see Concentration) in ddH₂O. If a lower concentration is required, dilute in PBS, pH 7.4. If a higher concentration is required, the product can be reconstituted directly in PBS, pH 7.4, though please note that this will change the overall salt concentration. The stock concentration should be between 0.1-1.0 mg/ml. Do not vortex.

Storage: Store at 2-8 °C for up to one month. Store at -80 °C for up to one year. Avoid repeated freeze/thaw cycles.

Molecular Weight: Calculated MW: 26.2 kDa
Observed MW: 26 kDa

Sequence Fragment: Leu39-Val152

Datasheet

Version: 2.0.0

Revision date: 23 Jun 2025

Tag: N-terminal His tag and SUMO tag

Buffer: Prior to lyophilization: PBS, pH 7.4, containing 0.01% Sarcosyl, 1 mM DTT, 5% Trehalose and Proclin-300.

Activity: Not tested

Concentration: Prior to lyophilization: 200 µg/ml

Note: THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.

For Reference Only
