

Alanine Aminotransferase (ALT/GPT) Assay Kit

Catalogue No.: abx092105

Alanine Aminotransferase Assay Kit is an Assay Kit by Colorimetric Method for detection of Alanine Aminotransferase activity in samples in serum, plasma, animal tissue homogenates and cell lysates using a spectrophotometer.

Target: Alanine Aminotransferase (ALT / GPT)

Storage: Shipped at 4 °C. Upon receipt, store the kit according to the storage instruction in the kit's manual.

Validity: The validity for this kit is 12 months.

Test Range: 1.26 IU/L - 72.3 IU/L

Sensitivity: 1.26 IU/L

Detection Method: Colorimetric

Assay Data: Quantitative

Sample Type: Serum, plasma, animal tissue homogenates and cell lysates.

Note: This product is for research use only.

The range and sensitivity is subject to change. Please contact us for the latest product information. For accurate results, sample concentrations must be diluted to mid-range of the kit. If you require a specific range, please contact us in advance or write your request in your order comments.

Please note that our ELISA and CLIA kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.
