

Campylobacter jejuni outer membrane Protein

Catalogue No.: abx061523

Campylobacter jejuni outer membrane Protein is a recombinant protein produced in E. coli.

Target:	Campylobacter jejuni outer membrane
Expression:	Recombinant
Tested Applications:	LF
Host:	E. coli
Form:	Liquid
Purification:	Purified
Storage:	Short term: Store at 2-8°C. Long term: Store at -20°C. Avoid repeated freeze/thaw cycles.
Molecular Weight:	18 kDa
Tag:	His tag
Buffer:	Tris Buffer. Preservative: 0.09% Sodium Azide.
Concentration:	3.86 mg/ml (OD280nm)
Note:	This product is for research use only. Not for human consumption, cosmetic, therapeutic or diagnostic use.
