

Human Interleukin 1 Receptor Associated Kinase 1 (IRAK1) Protein

Catalogue No.: abx067406

SDS-PAGE analysis of Human IRAK1 Protein.

Recombinant Interleukin 1 Receptor Associated Kinase 1 (IRAK1) is a recombinant Human protein produced in a Prokaryotic expression system (E. coli).

Target: Interleukin 1 Receptor Associated Kinase 1 (IRAK1)

Origin: Human

Expression: Recombinant

Tested Applications: WB, SDS-PAGE

Host: E. coli

Conjugation: Unconjugated

Form: Lyophilized

Activity: Not tested

Purity: > 95%

Reconstitution: To keep the original salt concentration, we recommend reconstituting to the original concentration prior to lyophilization (see Concentration) in ddH₂O. If a lower concentration is required, dilute in PBS, pH 7.4. If a higher concentration is required, the product can be reconstituted directly in PBS, pH 7.4, though please note that this will change the overall salt concentration. The stock concentration should be between 0.1-1.0 mg/ml. Do not vortex.

Storage: Store at 2-8°C for up to one month. For long-term storage, store at -80°C. Avoid repeated freeze/thaw cycles.

UniProt Primary AC: P51617 ([UniProt](#), [ExPASy](#))
