

MLKL (pS358) Antibody

Catalogue No.: abx243038

Immunohistochemistry analysis of MLKL (pS358) Antibody diluted at 1/100 and staining in paraffin-embedded human melanoma cancer. After dewaxing and hydration, antigen retrieval was mediated by high pressure in a citrate buffer (pH 6.0). Section was blocked with 10% normal goat serum 30min at RT. Then primary antibody (1% BSA) was incubated at 4°C overnight. The primary is detected by a biotinylated secondary antibody and visualized using an HRP conjugated SP system.
