

SU-5402

Catalogue No.: abx282695

SU-5402 is a small molecule which can act as a FGFR Phosphorylation inhibitor. It is provided as a powder.

This product acts on the following target types: Kinase.

This product acts on the following biochemical pathways: MAPK.

This product may be of interest in the following research areas and diseases: Cancer.

Please note that our chemical products are for scientific research use **only** in a laboratory and are not for medical or veterinary use. This product can only be dispatched to a scientific business or laboratory address.
