

Antigen Retrieval Solution (pH 6)

Catalogue No.: abx291503

Antigen Retrieval Solution (pH 6) is a 10X concentrated solution in citrate buffer for optimizing antibody performance in heat-induced antigen retrieval on formalin-fixed paraffin-embedded tissues.

Target: Antigen Retrieval Solution

Tested Applications: IHC

Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Form: Liquid

Storage: Store at 4-8°C.

Buffer: 100 mM citrate buffer, pH 6.0, containing 0.5% Tween-20 and 0.5% NaN₃.

Note: This product is for research use only.

Directions for use: Dilute 1/10 with distilled water to prepare the working solution, which can be stored at 4-8 °C for up to 3 months.
