

Streptavidin (HRP)

Catalogue No.: abx090699

Streptavidin (HRP) is an enzyme conjugated to HRP. Streptavidin is protein with similar biological characteristics to avidin. It has high affinity for biotin, making it a suitable choice for use in applications such as ELISA, WB and IHC.

Target: Streptavidin (HRP)

Tested Applications: ELISA, WB, IHC

Recommended dilutions: Direct ELISA: 1/10000 - 1/100000, WB: 1/2000 - 1/4000, IHC: 1/100 - 1/500. Optimal dilutions/concentrations should be determined by the end user.

Conjugation: HRP

Form: Liquid

Storage: Store at -20°C.

Validity: 12 months.

Buffer: 0.01 PBS, pH 7.4, containing protein stabilizers and 50% glycerol.

Concentration: 1 mg/ml

Note: THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION.

Directions for use: Samples containing endogenous biotin such as milk and egg white may cause interference. It is recommended to use BSA or gelatin as a blocking component rather than milk or milk powder. Use of ovalbumin (OVA) should also be avoided.
