

## African Swine Fever Virus Rapid Test Kit

Catalogue No.: abx092160

African Swine Fever Antigen Rapid Test Kit is a qualitative colloidal gold-based lateral flow immunochromatographic assay for the detection of African Swine Fever Antigen.

**Target:** African Swine Fever Antigen

**Reactivity:** Pig

**Tested Applications:** LF

**Storage:** Store at 2-30 °C.

**Validity:** The validity for this kit is 12 months.

**Stability:** The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

**Buffer:** Not applicable.

**Assay Type:** Sandwich

**Assay Data:** Qualitative

**Sample Type:** Serum.

**Note:** THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES.

Please note that our kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have different sequences or tertiary structures to the native protein.
