

SRP Receptor Alpha Subunit (SRPR) Antibody

Catalogue No.: abx004555

Western blot analysis of extracts of various cell lines using SRPR Antibody (1/1000 dilution).

SRPR Antibody is a Rabbit Polyclonal antibody against SRPR. The gene encodes a subunit of the endoplasmic reticulum signal recognition particle receptor that, in conjunction with the signal recognition particle, is involved in the targeting and translocation of signal sequence tagged secretory and membrane proteins across the endoplasmic reticulum. Alternative splicing results in multiple transcript variants.
