

## Serine/Threonine-Protein Kinase 26 (STK26) Peptide

Catalogue No.: abx269132

Serine/Threonine-Protein Kinase 26 (STK26) Peptide is a synthetic peptide. This peptide is used in the production of [abx432985](#).

|                               |                                                                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Serine/Threonine-Protein Kinase 26 (STK26)                                                                                                 |
| <b>Tested Applications:</b>   | P-ELISA                                                                                                                                    |
| <b>Host:</b>                  | Synthetic                                                                                                                                  |
| <b>Recommended dilutions:</b> | BL (predicted): 0.5 mg/ml. Optimal dilutions/concentrations should be determined by the end user.                                          |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                               |
| <b>Form:</b>                  | Lyophilized                                                                                                                                |
| <b>Activity:</b>              | Not tested.                                                                                                                                |
| <b>Reconstitution:</b>        | Reconstitute in deionized water.                                                                                                           |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                                             |
