

## Protein Disulfide Isomerase A2 (PDIA2) Peptide

Catalogue No.: abx616568

Protein Disulfide Isomerase A2 (PDIA2) Peptide is a synthetic peptide. This peptide is used in the production of [abx432126](#).

|                               |                                                                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Target:</b>                | Protein Disulfide Isomerase A2 (PDIA2)                                                                                                     |
| <b>Tested Applications:</b>   | P-ELISA                                                                                                                                    |
| <b>Host:</b>                  | Synthetic                                                                                                                                  |
| <b>Recommended dilutions:</b> | BL (predicted): 0.5 mg/ml. Optimal dilutions/concentrations should be determined by the end user.                                          |
| <b>Conjugation:</b>           | Unconjugated                                                                                                                               |
| <b>Form:</b>                  | Lyophilized                                                                                                                                |
| <b>Activity:</b>              | Not tested.                                                                                                                                |
| <b>Reconstitution:</b>        | Reconstitute in deionized water.                                                                                                           |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid repeated freeze/thaw cycles.                                                                             |
| <b>Gene Symbol:</b>           | PDIA2                                                                                                                                      |
| <b>GeneID:</b>                | <a href="#">64714</a> <a href="#">69191</a> <a href="#">287164</a>                                                                         |
| <b>NCBI Accession:</b>        | NP_006840.2                                                                                                                                |
| <b>Sequence Fragment:</b>     | Internal region (near C-Terminus), 477-481 AA: C-EYKSTRDLETFSK                                                                             |
| <b>Buffer:</b>                | Prior to lyophilization: Deionized water.                                                                                                  |
| <b>Note:</b>                  | THIS PRODUCT IS FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, THERAPEUTIC OR COSMETIC PROCEDURES. NOT FOR HUMAN OR ANIMAL CONSUMPTION. |
