

## Aldo-Keto Reductase Family 1 Member C2 (AKR1C2) Antibody (Biotin)

Catalogue No.: abx105115

Aldo-keto reductase family 1 member C2 Antibody (Biotin) is a Rabbit Polyclonal antibody against Aldo-keto reductase family 1 member C2 conjugated to Biotin.

|                               |                                                                                         |
|-------------------------------|-----------------------------------------------------------------------------------------|
| <b>Target:</b>                | Aldo-Keto Reductase Family 1 Member C2 (AKR1C2)                                         |
| <b>Clonality:</b>             | Polyclonal                                                                              |
| <b>Reactivity:</b>            | Human                                                                                   |
| <b>Tested Applications:</b>   | ELISA                                                                                   |
| <b>Host:</b>                  | Rabbit                                                                                  |
| <b>Recommended dilutions:</b> | Optimal dilutions/concentrations should be determined by the end user.                  |
| <b>Conjugation:</b>           | Biotin                                                                                  |
| <b>Immunogen:</b>             | Recombinant human Aldo-keto reductase family 1 member C2 protein (1-323AA).             |
| <b>Isotype:</b>               | IgG                                                                                     |
