

## RNA-splicing ligase RtcB (strain K12) Antibody (Biotin)

Catalogue No.: abx106307

(strain K12)RNA-splicing ligase RtcB d Antibody (Biotin) is a Rabbit Polyclonal antibody against (strain K12)RNA-splicing ligase RtcB d conjugated to Biotin.

|                               |                                                                                         |
|-------------------------------|-----------------------------------------------------------------------------------------|
| <b>Target:</b>                | RNA-splicing ligase RtcB (strain K12)                                                   |
| <b>Clonality:</b>             | Polyclonal                                                                              |
| <b>Reactivity:</b>            | E. coli                                                                                 |
| <b>Tested Applications:</b>   | ELISA                                                                                   |
| <b>Host:</b>                  | Rabbit                                                                                  |
| <b>Recommended dilutions:</b> | Optimal dilutions/concentrations should be determined by the end user.                  |
| <b>Conjugation:</b>           | Biotin                                                                                  |
| <b>Immunogen:</b>             | Recombinant Escherichia coli RNA-splicing ligase RtcB protein (1-408AA).                |
| <b>Isotype:</b>               | IgG                                                                                     |
| <b>Form:</b>                  | Liquid                                                                                  |
| <b>Purity:</b>                | > 95%                                                                                   |
| <b>Purification:</b>          | Purified by Protein G.                                                                  |
| <b>Storage:</b>               | Aliquot and store at -20°C. Avoid exposure to light. Avoid repeated freeze/thaw cycles. |
