

Thyroid Hormone Responsive (THRSP) Antibody

Catalogue No.: abx005459

Immunofluorescence analysis of MCF7 cells using THRSP Antibody

THRSP Antibody is a Rabbit Polyclonal antibody against THRSP. The protein encoded by this gene is similar to the gene product of S14, a rat gene whose expression is limited to liver and adipose tissue and is controlled by nutritional and hormonal factors. This gene has been shown to be expressed in liver and adipocytes, particularly in lipomatous modules. It is also found to be expressed in lipogenic breast cancers, which suggests a role in controlling tumor lipid metabolism.
