

DNA-Directed RNA Polymerases I, II, And III Subunit RPABC5 (POLR2L) Antibody

Catalogue No.: abx114608

DNA-Directed RNA Polymerases I, II, And III Subunit RPABC5 (POLR2L) Antibody is a Rabbit Polyclonal antibody against DNA-Directed RNA Polymerases I, II, And III Subunit RPABC5 (POLR2L). This gene encodes a subunit of RNA polymerase II, the polymerase responsible for synthesizing messenger RNA in eukaryotes. The product of this gene contains four conserved cysteines characteristic of an atypical zinc-binding domain. Like its counterpart in yeast, this subunit may be shared by the other two DNA-directed RNA polymerases. [provided by RefSeq, Jul 2008].
